

LATERAL FLEXICLEAN AXIAL

HYDRAULIC
CLEANING TOOL

Description

The FlexiClean AXIAL does an amazing job accessing hard to reach areas like hawse-tubes, caissons and water intakes. It can also be used for the cleaning of weld seams along bilge keels where the tool is self-centring over the weld.

- The ability to effectively clean internal diameters.
- FlexiClean Axial Standard (Available sizes: 60x60x1000mm, 1500mm, 2000mm, 3000mm).
- FlexiClean Axial Mini (Available sizes: 40x40x1000mm, 1500mm, 2000mm)

Features

- ▣ Designed for hard-to-reach areas
- ▣ Internal diameter cleaning
- ▣ Flexible size options
- ▣ Proven subsea performance
- ▣ Self-centering over weld seams
- ▣ Lightweight
- ▣ Robust
- ▣ Versatile

Specifications

Lateral Flexiclean Axial

General Technical Specifications

Type	Flexiclean Axial
Part Number	N/A
Weight in air	15 kg

Hydraulic

Max Input Pressure	140 Bar
Max Input Flow	35 L/min

Applications

Axial is a subsea tool suitable for a range of hard-to-reach cleaning applications including:

- The Cleaning of Hawse Tubes on Ship Bows easily reaching difficult to access spots in these tubes.
- The Cleaning of Caisson Structures reaching hard to reach areas in these workplace structures.
